Product Layout

Power Jack (Micro-USB)
HDMI Output (x2)

DP IN

Figure 1: Layout

- **DP IN:** Connect to PC's DisplayPort
- **HDMI Output (x2):** Connect to HDMI displays with HDMI cables (not included) Or connect to HDMI adapters (not included) to DVI or VGA to use with DVI/VGA displays
- **Power Jack (Micro-USB):** Connect to PC's USB port for power with the included Micro-USB power cable. ***Note**: This connection is required to power this adapter.

Hardware Installation

Important: If the source DP output doesn't support DP 1.2, the Multiple Stream Transport function will be disabled and this hub becomes a Splitter, mirroring your video source across all displays.

1. Power off all devices you plan to connect to the unit.
2. Connect the unit to your PC's DisplayPort connector.
3. Connect your HDMI monitors to the unit's **HDMI Outputs** with HDMI cables (not included).
4. Connect the unit's **Power Jack** to PC's USB port for power source with the included Micro-USB power cable.
5. Power on all of the connected devices.
6. It is ready for use.
