Installation

1. Insert the power plug into the charging station's power jack.
2. Plug the AC power adapter into a reliable 100V-240V wall outlet.
3. Verify the green LED on the power adapter is lit to ensure it's receiving power.

5. Press the On/Off button to power on the charging station. The power button should be lit with a blue LED.
6. Plug in your devices via their USB charging cables.

FAQ & Solutions

If the charger station isn't functioning properly:

- Check that the charger station is plugged into a functioning wall socket.
- Check that the green LED on the power adapter is lit to ensure that it is receiving power.
- Check that the USB cord is firmly inserted into both the charger station and your USB device.
- Check that the total wattage for all connected USB devices is under 65W.
- Check that the power of the charger is on.

Safety Notice

- Check that the wall outlet you are using is within the AC 100 - 240V range
- Do not place the charger on heated seats or against other heat sources
- Do not attempt to replace any part of the charger on your own
- Do not expose the charger to liquids or excessive heat
- Do not use any corrosive cleaning substances on the charger
- Keep out of reach from children

Thank you for choosing gofanco
