- User's Guide

System Requirements

- PC with an available DisplayPort (DP 1.2 recommended)
- Windows® 10 / 8.1 & 8 / 7 (32-/64-bit)

Product Layout

Figure 1: Layout

- **Mini DisplayPort Input:** Connect to PC's Mini DisplayPort
- **DP Output (x2):** Connect to DisplayPort displays with DP cables (not included) Or connect to DP adapters (not included) to HDMI, DVI or VGA to use with HDMI/DVI/VGA displays
- **Power Jack (Micro-USB):** Connect to PC's USB port for power with the included Micro-USB power cable. ***Note**: This connection is required to power this adapter.

Hardware Installation

Important: If the source Mini DisplayPort output doesn't support DP 1.2, the Multi-Stream Transport (MST) function will be disabled and this hub becomes a Splitter, mirroring your video source across all displays.

1. Power off all devices you plan to connect to the unit.
2. Connect the unit to your PC's Mini DisplayPort connector.
3. Connect your DisplayPort monitors to the unit's **DP Outputs** with DisplayPort cables (not included).
4. Connect the unit's **Power Jack** to PC's USB port for power source with the included Micro-USB power cable.
5. Power on all of the connected devices.
6. It is ready for use.
