PRO-HD2DP

HDMI2.0 to DP1.2 converter

User's Guide

gofanco®

Thank you for choosing gofanco

1. Introduction

The PRO-HD2DP HDMI2.0 to DP1.2 converter provides a professional way to convert HDMI input signal into a DisplayPort output. This device also supports the separation of high quality stereo analog audio and digital S/PDIF(TOSLINK) audio from the incoming HDMI signal without losing any active audio channels from audio bit-stream and makes HDMI audio more friendly to your audio systems with only stereo sound support.

2. Features

- DisplayPort 1.2a& HDMI 2.0a compliant
- Supports 8-bit, 10-bit, 12-bit Deep Color
- Supports 4K2K@60 4:4:4 8bits
- HDCP 1.4& 2.2 compliant
- Supports audio extraction via stereo (PCM 2.0) & TOSLINK (PCM 2.0/ Digital 5.1)
- Supports HDMI/DisplayPort Audio Format: PCM 2.0/5.1/7.1, Dolby 5.1/7.1, DTS 5.1/7.1

3. Package Contents

- 1x PRO-HD2DP
- 1x 5V/2A power supply unit
- 1x User Manual
